## Personal skills and competences

**Scientific and academic activities:** During the degree course is a winner for 5 consecutive academic years, from 1994 to 1999, a merit-based scholarship (based on the arithmetic average university) at the Department of Electron Microscopy, directed by Professor Pietro Motta, under the guidance of Prof. Guido Macchiarelli and Prof. Stefania Nottola, Institute of Human Anatomy, University of Rome "La Sapienza", where "he learned the basic techniques of scanning electron microscopy and transmission, and has participated in numerous studies on the ultrastructure of the ovary and fallopian tubes, the nephron, the glomerulus, the endocardium, the myocardium (scientific publication No 26) also assisting the teaching staff in technical and practical lessons and tutorials in anatomy macroscopic, microscopic, and during the dissection of human cadavers."

Within the specialty urology, Dr. Pastore plays and has conducted research in the main field of urologic-oncology (basic research, medical treatment, surgery and its prevention), andrology, benign prostatic hyperplasia and urinary incontinence. Within urology oncology was particularly interested and busy, both in scientific research and clinical care of prostate cancer: prevention, basic research and medical-surgical therapy of localized or locally advanced and metastatic hormone-refractory cancer. On the topic of urinary incontinence and, more generally, on functional urological problems was concerned with the treatment: rehabilitation, medical and surgical.

Since April 2002 (year and month of birth of the magazine) to December 2004 was in the editorial board of the quarterly journal urology specialist "Prostate News", a national circulation. As part of this magazine, is author of 10 scientific articles and 1 monograph on "analogs of somatostatin in the treatment of hormone-resistant prostate cancer."

He attended and participates, at present, as a sub-investigator to numerous experimental uro - andrological clinical trials.

### National and International Scientific Awards

- Best paper published in the journal Urology Internationalis, the official newspaper of the Italian Society of Urology in 2002, "Histopathological Aspects Associated with benign prostatic hyperplasia of the diagnosis: clinical implications"
- Communication award at the XIII National Congress SIURO, 8-11 November 2003 Ancona, C11: "A combination therapy of ethinylestradiol and somatostatin analogue reintroduces objective clinical responses and Reduces chromogranin A (CgA) levels in androgen ablation - refractory Prostate Cancer Patients"
- Congress Highlights at the headquarters of the American Urological Association Annual Meeting 2003 with the work: "chromogranin A serum levels intermittent versus continuous androgen deprivation During therapy for prostate adenocarcinoma." J Urol 2003; 169 (4): 943.
